

18 October 2019

Principal
SKH LAM WOO MEMORIAL SECONDARY SCHOOL
397 Kwai Shing Circuit, Kwai Chung

Dear Principal,

I have the pleasure to inform you that the following students who graduated from your school joined our programme, BEng (Hons) Biomedical Engineering, with an admission scholarship based on their outstanding academic performance in the public examination and/or high school. This scholarship also marks a commendable accomplishment to reward your school's teaching excellence.

<u>Name</u>	<u>Year of Study</u>
CHAN, Shu Min	2
YAN, Tin Lok	2

CUHK offers a range of admission scholarships to both local and non-local undergraduate students to reward their outstanding academic or non-academic performance. The amount of Admission Scholarship ranges from HK\$5,000 to a full-tuition coverage. Some also include an allowance of up to HK\$45,000 per year. We also put extra weighting for the Principal's recommendation in our selection process.

Our programme contents are taught by faculty members from both Engineering and Medicine across throughout the 4 years. Ample academic exchange opportunities are available. A large percentage of our BME students are offered industrial and research internships both local and overseas. Our students also participated in many international Innovation and Entrepreneurship competitions and won awards. Wish to see CHAN, Shu Min and YAN, Tin Lok have those experience with us and has a wonderful career. We will post all their activities in Facebook and wish you can see their fruitful life with us.

The CUHK Orientation Day for Undergraduate Admissions on 30 November 2019 is cancelled. We will specially organize an Information Day for Biomedical Engineering programme on 02 November 2019. Details will be announced later. Meanwhile, I am most happy to arrange an admission talk at your school or a visit to our department. We hope that event may serve as a channel for sharing of teaching and learning experience. The programme Booklet is available at http://www.bme.cuhk.edu.hk/new/files/CUHKBMEBooklet_2019_20.pdf for more information.

For enquiries, please contact Ms Cathy Tang at 3943 3025 or email us at bmeugadm@cuhk.edu.hk.

Sincerely,

Professor TONG Kai Yu Raymond
Chairman and Professor
Department of Biomedical Engineering
