2025-2026

School Mission

Our school is a co-educational secondary school under the supervision of Diocese of Western Kowloon Hong Kong Sheng Kung Hui (Anglican). Established in 1970, we aim to make available our boys and girls a sound and all-round secondary education conducted on Christian principles as reflected by our school motto “The truth will make you free” (St. John, 8:32). Keeping in step with the spirit of Jesus Christ our Lord, our school has the mission of providing students with an all-round education aimed at excellence in intellectual, ethical, physical, aesthetic, social and spiritual development.

We aim to cultivate our students with the qualities of a LAMWOOER: Leadership, Ardour, Modesty, Wisdom, Optimism, Originality, Empathy and Responsibility.

School Development Plan

Our school’s Major Concerns in the three-year cycle (2024-2027) include:

1. Learning Means
2. Lamwooers’ Wellness

52nd Speech Day

Qualifications and Professional Training of Teaching Staff

Our school has a total of 62 teachers and 729 students. To act as role models of lifelong learning for students, our teaching staff have been attending professional courses to upgrade themselves.

Class Structure and Curriculum

Our school is a whole-day secondary school that adopts English as the Medium of Instruction (EMI). The class structure is as follows:

	Form 1	Form 2	Form 3	Form 4	Form 5	Form 6
No. of classes	4	4	4	5*	5*	5*

* To cater for curriculum streaming and learner diversity, there are 5 classes from Form 4 to Form 6.

The curriculum offered are as follows:

English as the Medium of Instruction	F.1 to F.3	English Language, Mathematics, "Citizenship, Economics and Society", Computer Literacy, "Design, Technology and Living", Geography, History, Integrated Science (F.1 and F.2), Language Across the Curriculum (F.1), Language Art and Literature (F.1 and F.2), Music, STEAM subject, Visual Arts, Biology (F.3), Chemistry (F.3), Physics (F.3)
	F.4 to F.6	English Language, Mathematics (including extended module 1 and module 2), Citizenship and Social Development, "Business, Accounting and Financial Studies", Biology, Chemistry, Economics, Geography, History, Information and Communication Technology, Physics, General Education (F.5, according to courses)
Chinese as the Medium of Instruction	F.1 to F.3	Chinese Language, Chinese History, Physical Education, Putonghua (F.1), Religious Education
	F.4 to F.6	Chinese Language, Chinese Literature, Chinese History, Physical Education, Religious Education, General Education (F.5, according to courses)

Introducing Class Structure and Curriculum of our School to the Public

Emphasising Curriculum Development, Enhancing Teaching Quality

Unleashing academic potentials

To induce deeper discussions in academics, elite classes in Chinese, English and Mathematics are arranged for F.2 to F.6 according to the needs of different forms. Apart from after-school enhancement programmes and courses for gifted students, courses in various aspects are also offered according to students' need. This General Education programme enriches students to widen their horizons and unleash their potential.

General Education - Forensic Anthropology

Catering learning needs

Students may face various difficulties in their secondary education. Remedial classes for F.2 and F.3 students in Chinese, English and Mathematics allow teachers to help students in need. Subject teachers, Guidance Section and school social workers also communicate and pay close attention to spot out the students in need. Tutorial classes, group activities and individual care will be provided to renew students' strength in learning.

Nurturing Students' Language Abilities

Our school launches a task force to constantly review the implementation of the language policy. English and Putonghua are officially used in school assemblies, announcements and other major school events. English Award Scheme and Putonghua promotional activities are organised to stimulate an interactive learning of the languages. Other extra-curricular activities, such as Chinese and English Debating Teams, English Corner activities and classes of various languages such as Japanese, German, French etc., are available for students to hone their language proficiency.

Life Education, Education for Life

School-based life skills lessons are especially devised for Form 1 students. The subject "Design, Technology and Living" is also included in the Junior Secondary curriculum, aiming at cultivating students' vital life skills.

Upholding Professionalism

Our school is dedicated to striving for excellence in teaching. Professional development programmes, including Staff Development Days and school-based training workshops, are organised to equip teachers with a broad array of up-to-date learning and teaching initiatives. Teachers also spare no effort to keep abreast of the latest e-learning software and ideas to facilitate effective learning and teaching. Regular lesson observation and reviews are conducted annually to ensure and enhance quality.

Staff Development Day

T-talk: A Platform for Lamwooers to Shine

Inspired by the TED Talks, our school has launched a platform open to all Lamwooers to share their insights in an 18-minute speech. Students stand onstage on their own initiative, presenting a multitude of topics they are interested in, ranging from Astronomy to History; from Magic to Bus Fandom. Not only can this be a valuable experience for student speakers to boldly articulate their views, it also enables the audience to pursue new knowledge. As the activity is largely student-led, students are empowered to exchange brilliant ideas with their peers.

T-talk

English-rich learning environment

Our school has been dedicated to providing an English-rich environment for students. Thanks to the generous donations from different parties, we are privileged to be able to hire an additional Native English Teacher (NET). English Corner and English Award Scheme (EAS) provide numerous English activities such as English Speaking Days, EAS Week etc. to arouse students' interest in English. We have also renovated our English Corner, a cozy place for students to communicate with their friends and play games in English.

Our school actively provides various exchange programmes for students. Apart from those run by Chatteris Education Foundation and Royal Geographical Society, we organise joint school activities and encourage students to participate in different competitions. They all widen students' horizons and help to expose students to diverse cultures and enhance their English skills.

Information Technology and STEAM

In addition to our online platforms, school website and eClass intranet system, which facilitate communication between teachers and students, we have also widely adopted the education service from Google. With the full installation and coverage of Wi-Fi on campus, the efficiency of learning and teaching is greatly enhanced. Projectors, visualizers and Apple AirPlay are also available to facilitate teaching. Students are encouraged to use laptops, tablets and different online learning platforms for their self-learning. In order to better support learning and teaching with information technology, our school has purchased various related apps and software, such as Explain Everything and Edpuzzle, which allow teachers to integrate interactive multimedia into their lessons and flipped classroom strategies.

Got a Silver Medal in Senior Group in the "Hong Kong Olympiad in Informatics 202425"

Our school offers a comprehensive innovation and technology curriculum for all junior form students, encompassing programming, robotics and electronic control, artificial intelligence, Internet of Things, and virtual reality. Students engage in cross-curricular group projects in STEAM lessons, applying knowledge from various subjects to address real-world challenges. Our school has DJI programmable drones, LEGO robots, SenseTime A.I. robots, an AR sandbox, VR headsets, 3D printers, a 3D scanner, flight simulators and a mobile planetarium, catering to the diverse learning needs of our students. Students can participate in various advanced courses in the state-of-the-art STEAM laboratory, including artificial intelligence, robotics, game development, aviation, fintech and blockchain. Our students have excelled in various STEAM competitions. Some of them have even represented Hong Kong in regional and international competitions, such as the International Coding Challenge, Soong Ching Ling Children's Invention Award, and the Greater Bay Area A.I. Science & Innovation Competition, bringing home awards. Leveraging our school network and social resources, our school has partnered with The Chinese University of Hong Kong to establish an A.I. curriculum for junior form students, and has organized a joint-school machine learning course conducted by lecturers from Purdue University.

Our two teams of students got Distinction Award and Merit Award respectively in "Python Application Challenge 2025"

All F.1 students learned coding and assembled robots

Got First Prize and Best Coding Award in the "Secondary Robot Bun Scrambling Contest 2025"

Academic Excellence

110 F.6 students sat the HKDSE 2025 and they performed very well. They obtained 236 Level 5 to 5** (including Mathematics Extended Parts). On average each student attained Level 5 or above in 2.15 subjects. 3 students scored Level 5** in two or more subjects. 6E FUNG Sze Hang achieved 5** in four subjects. 73 students (66.4%) obtained 20 grade points or above, which is equivalent to scoring Level 4 or above in 5 subjects. 91.8% of our students met the basic university entrance requirement (332A2).

Religious Education Grants Nutrients for Spiritual Growth

Located in the parish of HKSKH Crown of Thorns Church, the school is visited by the pastoral team of the church on a regular basis. They have been running the Come and See programme, a weekend religious programme for F.1-F.3 students. Religious Education lessons are arranged across all forms. Christian values such as joy, peace, integrity, willingness to serve and a positive regard for life are imparted so as to strengthen students' character development. To foster communal pursuit of spiritual growth, Christian Fellowship is held every Friday after school. Students also take part in a wide range of activities, including Gospel Week, summer Gospel Camp, evangelical meetings, retreats, music praises and outings to deepen their understanding of the Christian faith and to better appreciate the wonders of creation.

Encouraging All-Round Development Cultivating Positive Values and Sense of Community

Our school has established various leadership training programs to foster students' all-round development. The Discipline Section, Guidance Section, Moral and Civic Education Section, and Religious Education Committee work collaboratively to implement civic education and help students face life's challenges. These programs also aim to cultivate students' self-discipline and foster self- and mutual respect. Besides, the Careers Section and Extra-Curricular Activities Section offer a wide range of activities to allow students to explore their potential and broaden their horizons. The two social workers, the educational psychologist, and experienced teachers from our school also provide counselling services to students. This ensures that our students can grow happily in a caring school environment.

34th SU Junior Form Leadership Training Camp

Leadership Training Camp For Head Post Leaders

Learning Beyond Classroom

We encourage students to widen their horizons and broaden their scope of knowledge. Annual leadership training camps are therefore held to nurture potential leaders. Our school Cultural Promotion Committee also takes part in a number of cultural activities to develop students' aesthetic qualities. We have also established sister schools in China and Japan, and maintain regular exchanges and contacts. Study tours to countries including China, Taiwan, USA, UK, Canada, Russia, Australia, Korea and Southeast Asian countries have also been organised thanks to the funding and financial assistance from Education Bureau, the Commission on Youth, Li Ka Shing Foundation and American Chamber of Commerce in Hong Kong.

Helping Form 1 Newcomers with School Adaptation

Same house and even class distribution is adopted in Form 1 class allocation, so that students can familiarise themselves with the new studying environment, build social circles and make progress in various developmental needs. Furthermore, our school launches Form 1 Adaptation Programme, in which Summer English Bridging Course and Language Across the Curriculum Learning Course are organised. Students can adapt to our English learning environment. Moreover, parents meet the class teachers during Orientation Day held in August every year. "Big Brother Big Sister" Scheme is also introduced. Senior form students are recruited to help Form 1 students adapt to their school life. Form 1 students will stay at school for lunch in the first few weeks in September to foster peer relationship. Two class teachers are assigned to each Form 1 class so as to better cater for students' needs.

F.1 Pre-term Parents' Day - Getting to Know the School

Diversified Extra-curricular Activities: Inspiring Students' Potential

Our school organises a wide range of extra-curricular activities to nurture students' interests across various domains. The Student Extra-curricular Activities Team and the Four Houses host numerous events for student participation. To foster personal growth, all Form 1 students must select at least one extra-curricular activity, such as musical instrument classes, music teams, sports teams, academic school teams, the Community Youth Club or uniform groups. All orchestra teams, musical instrument classes, sports teams, academic school teams, and select clubs are led by professional teachers and coaches.

Athletic's Meet

Our extra-curricular activities are classified into three main categories:

1. Musical Instrument Classes: 8 Chinese and 14 Western musical instrument classes.
2. School Teams:
   - Music Teams: School Choir, Chinese Orchestra, Orchestra and Symphonic Band.
   - Sports Teams: Basketball, Volleyball, Badminton, Table Tennis, Dance, Track and Field, Karate, Orienteering, Darts, Swimming, Rugby and Fencing.
   - Academic Teams: Chinese Debate, English Debate, Drama, and Physics Olympiad.
3. Clubs:
   - Academic Groups: Mathematics Club, History Club and Chemistry Club.
   - Interest Groups: Bridge Club, Astronomy Club and Transport Club.
   - Uniform and Service Groups: Red Cross and Community Youth Club.

Endowing Scholarships, Motivating Students in Their Academic Work

A total of 80 categories of scholarships are endowed to encourage the development of students in different aspects. Apart from scholarships to award students with excellent academic performance and conduct, academic improvement award, religious education award, conduct improvement scholarship, etc., are also set up by Incorporate Management Committee, Lam Woo Foundation and our generous alumni in order to commend students for their outstanding achievements in both academic and non-academic domains. Thanks to the HK$1 million donation during our 40th school anniversary, we are able to set up All Round Education Fund to help students from humble background partake in extra-curricular activities and offshore programmes.

Our students also proudly receive Tsuen Wan Rural Committee Scholarship, Sir Edward Youde Memorial Fund Scholarship, Grantham Scholarships, etc. Every year, our students are also awarded New Territories Outstanding Student Award and Tsuen Kwai Tsing Outstanding Student Award. In the past, a total of five Form 1 students were awarded Lee Hysan Foundation Scholarship and received HK$3 million to subsidise their college study in the United Kingdom or Australia. Also, a total of eight Form 6 students obtained full funding of the Hong Kong Scholarship for Excellence Scheme to pursue their studies at renowned universities outside Hong Kong. Our student Liu Wai Ki received Friends of Gordonstoun Scholarship and pursued her A Level study in Gordonstoun School in the UK in 2025.

Our student Lau Yin Yin was awarded the outstanding student in the Tsuen Kwai Tsing District Most Outstanding Student Election 2024/2025

Our student Chu Tsz Ying won the Link 20th Anniversary Outstanding Students Scholarship

Our student Lai Wing Chun is one of the finalists in the SCMP Student of the Year Award (Best Devotion to School)

Collaborating with Parents, Nurturing Students' Growth

We believe that communication between the school and parents is an essential element in students' development. Therefore, a number of Parents' Days and Parents' Nights are held for different forms throughout the school year to help parents understand more about the school and their children. Parents' talks, workshops, picnics, a parents' volunteering team, a parents' activity group, and parents' fellowship are arranged by the Parent-Teacher Association (PTA) to further strengthen the cooperation between the school and parents. Periodic newsletters are also published to update parents on the latest news about the school and PTA.
